Les Vues d' Anbalaba Appartement

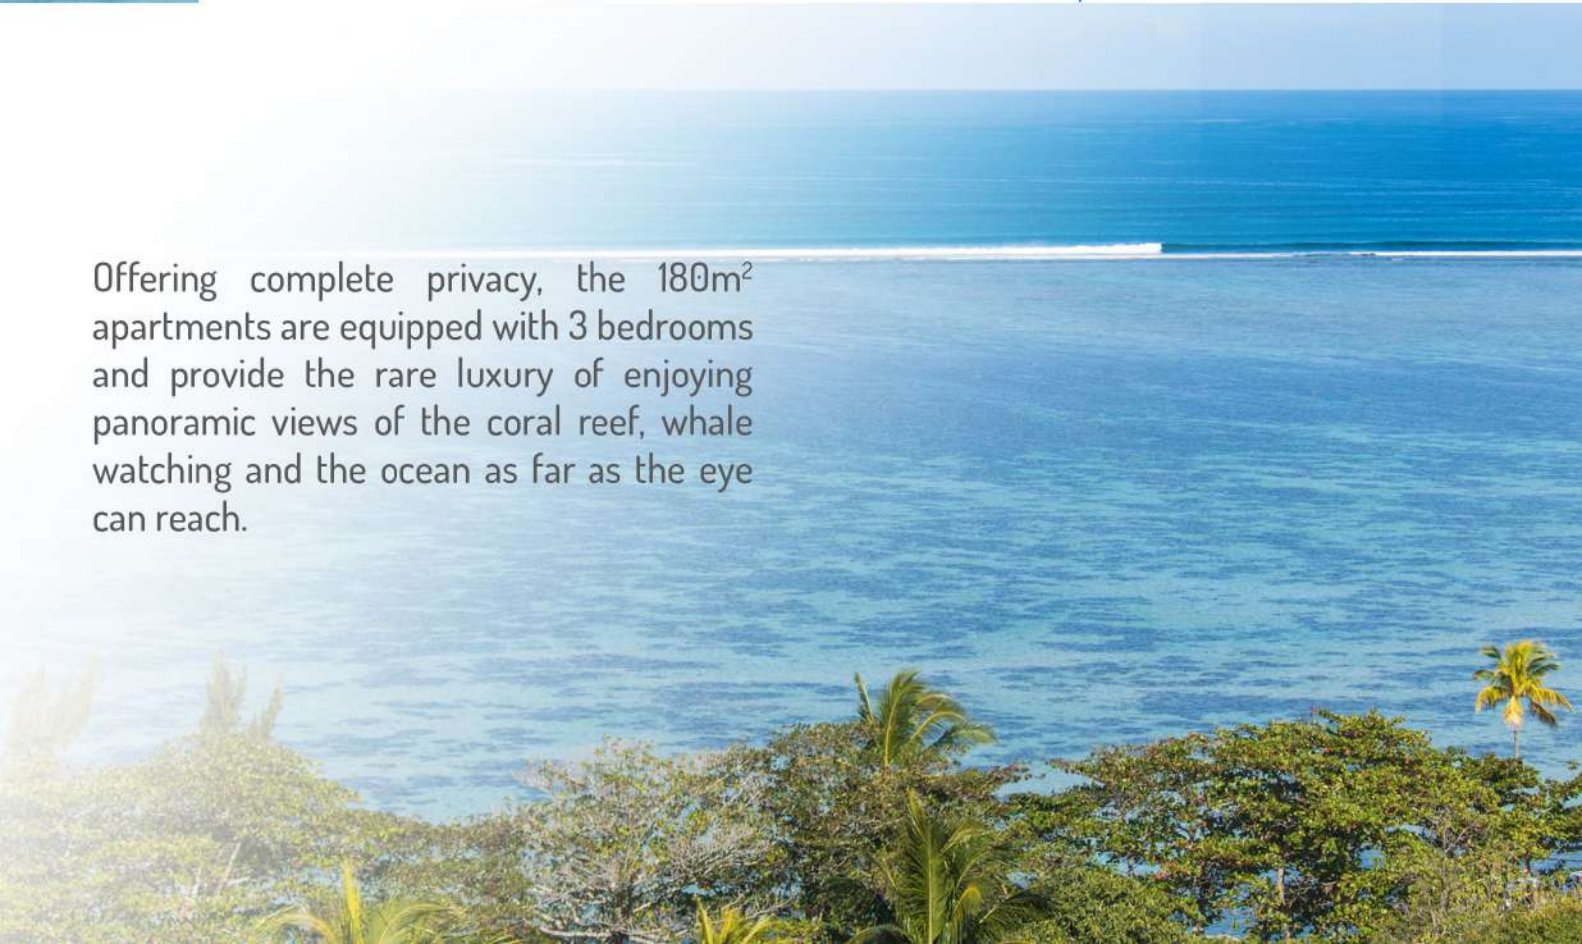

Les Vues d'Anbalaba are a set of three adjoining buildings forming a complex of 18 apartments of 180m² of living space. Thus, each building consists of three apartments on the ground floor and three apartments on the first floor. Located on the heights of "Anbalaba", they offer an exceptional view of the Baie du Cap lagoon. Their modern, uncluttered architecture fits perfectly into the tropical landscape of the south of Mauritius.

View on the lagoon...

Offering complete privacy, the 180m² apartments are equipped with 3 bedrooms and provide the rare luxury of enjoying panoramic views of the coral reef, whale watching and the ocean as far as the eye can reach.

BLOCK B

On the ground floor, the apartments have a private outdoor space for even more comfort. The owners will have the pleasure of enjoying a magnificent 25-meter semi-Olympic swimming pool with an overflow on the horizon.
